

GCSE 2024

HEADLINES

- 89% of pupils achieved at least one Grade 9
- 98% of all GCSE grades were 4 to 9.
- 84% of all GCSE grades were 7 to 9
- Over 50% of all GCSE grades were 9s.
- Nearly 1 in 6 pupils achieved straight 9s.
-

PROGRESS 8

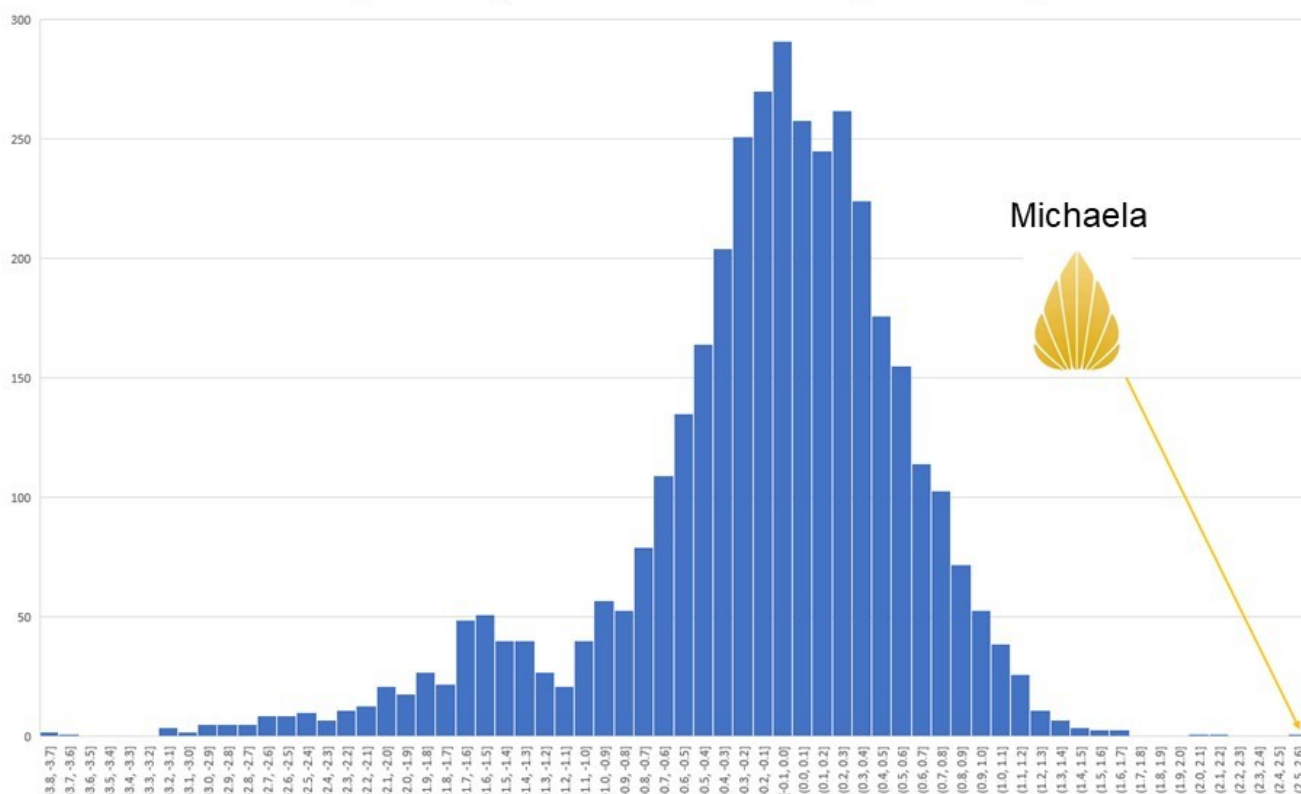

Our 2024 Year 11 cohort entered with higher KS2 data, requiring pupils to achieve at least half a grade higher to maintain our Progress 8 score. This meant setting ambitious targets: our top set aiming for all Grade 9s, the second set targeting Grades 8 and 9, and the third set focused on achieving Grade 8s. It was an enormous challenge.

Despite this, we topped the progress tables. Furthermore, this marked the third consecutive year Michaela topped the progress tables

2022	2023	2024
2.27	2.37	2.55

To put these scores into perspective, out of nearly 4,000 schools, only three (including Michaela) achieved a score above 2, and only 81 scored above 1.

GCSEs 2024 – Progress 8 (number of schools against Progress 8 measure)

Note: we won't have Progress 8 scores for the next two years as these cohorts did not KS2 SATs because of COVID.

Progress scores in each “bucket”

This was the first year Michaela topped all Progress 8 categories: Maths, English, Ebacc (Humanities and Languages), and ‘Other Subjects’.

SUBJECT RESULTS

Since 2022, GCSE results have improved year on year, even against the backdrop of declining national results as grading standards return to pre-Covid levels.

2024

Cum%	Maths	Eng. Lang	Eng. Lit	Sci. 1	Sci. 2	Rel.	Hist.	Geog.	French	Photo
9	51	28	46	67	54	84	62	35	43	0
8	72	56	71	82	75	94	88	68	65	0
7	83	84	89	93	87	95	94	87	74	5

2023

Cum%	Maths	Eng. Lang	Eng. Lit	Sci. 1	Sci. 2	Rel.	Hist.	Geog.	French	Photo
9	48	7	21	57	45	50	45	7	28	0
